Decorative pressed laminated table top (10mm). Interior composed of thermostable resin kraft paper and surface lined with impregnated decorative paper. The compound is pressed simultaneously at high temperature and pressure to obtain a high density compacted table top.

Plateau stratifié compact décoratif (10mm). Formé sur sa face extérieure par du papier décoratif imprégné et dans son intérieur par du papier kraft imprégné avec des résines thermostables. L'ensemble est ensuite pressé sous l'action de la chaleur et de la haute pression, simultanément, afin d'obtenir un plateau compact de haute densité.

* No se recomiendan los colores oscuros para zonas muy soleadas - Não se recomendam cores escuras para zonas muito soalheiras - Dark colors are not recommended for very sunny areas - Les couleurs foncées ne sont pas recommandées pour les zones très ensoleillées.

Parasol descontaminante
Guarda-sol descontaminante
Air purifying parasol
Parasol décontaminant

ezpeleta.com/pureti

Al igual que los árboles, el tejido de este parasol descontamina el aire de las ciudades, neutraliza los gases de los motores y otras sustancias nocivas. Incorpora una nanotecnología que, en contacto con la luz solar, convierte las sustancias contaminantes del aire en sales inertes.

Tal como as árvores, o tecido deste guarda-sol descontamina o ar das cidades, neutraliza os gases dos motores e outras substâncias nocivas. Tem incorporada uma nanotecnologia que, em contacto com a luz solar, converte as substâncias contaminantes do ar em sais inertes.

Much like trees, the fabric of this umbrella reduces city pollution, neutralizing engine gases and other harmful substances. Its nanotechnology, upon contact with sunlight, turns air pollutants into inert salts.

Tout comme les arbres, le tissu de ce parasol décontamine l'air des villes et neutralise les gaz d'échappement des moteurs et d'autres substances nocives. Il intègre une nanotechnologie qui, en contact avec la lumière du soleil, transforme les substances contaminantes de l'air en sels inertes.

OLEFIN

Alta solidez de los colores a la radicación UV. Se trata de un tejido fabricado con hilo de polipropileno que ha sido tintado en masa, en su proceso inicial. Esto le otorga una gran resistencia a la luz solar ya que el color queda fijado en el hilo del tejido con mayor intensidad que en otros procesos.

Certificación UV standard 801 con la puntuación UPF 80, que garantiza la protección de la piel de los efectos nocivos de los rayos UV.

Repelente al agua - resistente a las manchas - 100% reciclable.

Alta resistência das cores face à radiação UV. Sendo um tecido fabricado com fio em polipropileno tingido em massa no seu processo inicial, esta característica confere-lhe uma maior resistência à luz solar o que se deve essencialmente ao facto de a cor permanecer fixada ao fio com maior intensidade do que em outros processos de pigmentação.

Certificação UV standard 801 com factor de proteção UPF 80, que garante a proteção da pele dos efeitos nocivos dos raios UV.

Repelente à água - anti-manchas - 100% reciclável.

High resistance of colours to UV radiation. The fabric is made from polypropylene fabric mass-dyed during the initial process. This provides high resistance to sunlight because the colour is set in the thread of the fabric more intensely than in other processes.

UV standard 801 certification rating UPF 80, that guarantees skin protection against nocive effects of UV rays on the skin.

Water repellent - stain resistance - 100% recyclable.

Haute résistance des couleurs face à la radiation solaire. Il s'agit ici d'une toile fabriquée à partir d'un fil en polypropylène qui a été teinté en masse, depuis son processus initial. Ceci lui confère une haute résistance à la lumière solaire, étant donné que la teinte reste fixée sur le fil avec une plus grande intensité en comparaison avec d'autres processus de pigmentation.

Certification UV standard 801 avec un factor de protection UPF 80, qui garantie une protection de la peau face aux effets nocifs des rayons UV.

Repellente à l'eau - résistant aux tâches - 100% recyclable.

SOLUTION DYED - COLOUR FASTNESS: 7-8/8 - 100% RECYCLABLE

Disponemos de un tejido de poliéster 100% tintado en masa para pedidos con logotipo.
Temos um tecido 100% poliéster tingido em massa para pedidos com logotipo.
We have a 100% mass-dyed polyester fabric for orders with a logo.
Nous avons un tissu 100% polyester teint dans la masse pour les commandes avec logo.
